## 🎓 EDUCATION

---

Sun Yat-sen University, <i>Ph.D.</i> in Computer Science	Dec. 2018
Guangdong University of Technology, <i>M.S.</i> in Computer Science	July 2014
Jiangxi University of Science and Technology, <i>B.S.</i> in Software Engineering	July 2010

## 📄 RESEARCH EXPERIENCE

---

- **Postdoctor**, University of Glasgow, working with **Iadh Ounis** 2019.3-present
- **Visiting PhD**, King Abdullah University of Science & Technology, working with **Xiangliang Zhang** 2018.3-2018.8

## 🔍 RESEARCH INTERESTS

---

My research interests include **Information Retrieval (IR)**, **Machine Learning (ML)**, **Natural Language Processing** and **Recommender Systems**.

- During my PhD study, I mainly focused on two topics: diversified graph search and large-scale social and information networks modelling. In particular, we propose a series of models for solving the network embedding tasks where the attributes, partial labels and network evolving are taken into account, products of which were published at WSDM2019, NeurIPS2019 and TOIS.
- As a postdoc at the Terrier Team, I have been working for the EU **Bigdatastack** project for supporting the use case application, focusing on the field of Recommender Systems.

## 📖 SELECTED PUBLICATIONS

---

- 14) **Zaiqiao Meng**, Richard McCreadie, Craig Macdonald, Iadh Ounis. Representation Learning for Grocery Recommendation with Item Side Information. (Submitted)
- 15) **Zaiqiao Meng**, Richard McCreadie, Craig Macdonald, Iadh Ounis. Dynamic Variational Bayesian Representation for Grocery Recommendation. (Submitted)

## ⚙️SKILLS

---

- Programming: Python (Tensorflow, pytorch), Java, C++
- Language: English-Fluent (IELTS: 6.0), Chinese Mandarin (Native).

## 🌐PROFESSIONAL ACTIVITIES
